## EDUCATION

### University of Notre Dame

August 2014 - January 2018

Bachelor of Arts, Major in Japanese, Minor in Computing & Digital Technologies

Cumulative GPA: 3.87, Dean's List 2015 - 2017

## EXPERIENCE

### Assistant Language Teacher

July 2018 - Feb 2020 | Yamagata, Japan

- Worked in multiple elementary and junior high schools by creating and carrying out English lesson plans and activities for various grade levels. Other duties included organizing community events, teaching weekly seminars for adults, as well as translation and interpretation for foreign students

### Technical Solutions Engineer

Feb - July 2018 | Epic Systems, Verona, WI

- As member of HIM team, worked in conjunction with multiple clients to diagnose problems, find solutions, and implement changes in Epic software

### Virtual Reality Development Research Assistant

Aug - Dec 2017 | Univ. of Notre Dame, Notre Dame, IN

- Using Unity and C#, developed VR environments for use in psychology experiments that utilize Leap Motion and HTC Vive

### Business Analyst Intern

May - Aug 2017 | City of South Bend, South Bend, IN

- Assisted in front-end development of various websites used by South Bend residents and by city departments, focusing on ease of use and functionality

### Private Tutoring

June 2012 - 2017 | Lincolnshire, IL

- Taught children and adults in basic and more advanced math, English, and test prep. Organized weekly lesson plans to optimize students' learning and prepared individualized assignments that tackled each student's specific weaknesses
